

New York State approved Continuing Education coming!

The NYSSCSW is committed to providing clinically relevant educational opportunities to its members. Traditionally, these opportunities consist of large statewide and chapter-based conferences and workshops offered continuously throughout the year on topics of general interest. Often, but not always, continuing education credits or units (CEUs) are offered for these educational events.

As of January 1, 2015, CEUs will be required for re-registration to practice in New York State. According to Chapter 443 of the Laws of 2013, each licensed master social worker (LMSW) and licensed clinical social worker (LCSW) will need to complete 36 hours of acceptable continuing education credits prior to their next triennial registration. If one's registration is due before January 1, 2018, one is required to have one CE credit per month. For example, if the registration were due in September 2015, one would have to demonstrate nine acceptable CEUs for the nine month January-September 2015 period.

The newly formed Advanced Clinical Education Foundation (ACE)

is applying for provider recognition from the New York State Department of Education on December 1, 2014
